• ABOUT ME

I'm a Software Developer with a track record of shipping mobile and web applications end to end, from stabilizing production platforms serving thousands of concurrent users to building systems handling 50,000+ product catalogs. Skilled across Flutter, Swift, PHP/Laravel, and modern JavaScript (Next.js), with hands-on ownership of API design, database architecture, and user-facing interfaces. Known for taking over messy or unfinished codebases and turning them into reliable, production-ready products.

• WORK EXPERIENCE

01/01/2026 - CURRENT - REMOTE

ASSOCIATE SOFTWARE ENGINEERFREELANCE

UNiFY (USA Based Contract)

- Brought a crash-prone Flutter/Python-Flask app to production-ready by fixing critical bugs and client-backend data mismatches.
- Scaled live scores and in-app chat to thousands of concurrent users by building real-time WebSocket infrastructure, plus NFC ("Baller Band") and push notification integration.
- Secured payment processing by building the PostgreSQL/Redis/AWS backend with Redis caching and Stripe.

19/05/2025 - 30/06/2026 - NITTAMBUWA, SRI LANKA

ASSOCIATE SOFTWARE ENGINEERDAYZ SOLUTIONS (PVT.) LTD.

Deurbeslag Gigant (Netherlands)

- Took ownership of a live Laravel platform and led its refactor around service classes, repositories, and thin controllers, cutting technical debt.
- Prevented overselling across 5+ WooCommerce stores and 50,000+ products by leading REST integration with the Bol.com API, adding rate limiting and retry logic.
- Sped up product search and automated fulfillment (GLS/DHL labels, WooCommerce auto-completion, Dropbox routing) by replacing slow SQL search with Meilisearch across the 50,000+ catalog.

ECore Web + Mobile App (Netherlands)

- Led development of a Flutter/Dart mobile app from scratch as sole mobile lead, owning all technical decisions in direct coordination with engineering leadership and the Director.
- Directed the design of scheduling and workflow views, turning complex logistics (machinery, work orders, staff) into a clean interface.
- Led integration of the real-time REST/WebSocket layer enabling live order and machinery tracking.

BusinessLabels.nl (Netherlands)

- Improved searchability across a 50,000+ product catalog by building responsive React components (Tailwind CSS, Radix UI) from Figma specs.
- Synced frontend/backend data by integrating Next.js with the Laravel REST API for account and product management.
- Fixed a critical checkout bug and stabilized deployment for both apps using PM2.

01/08/2022 - 01/06/2025 - REMOTE

SOFTWARE DEVELOPER**FREELANCE**

- Delivered Laravel/MySQL web platforms, including client management and admin panel systems, for local businesses, self-driven work alongside my HND that turned into paid client projects.
- Built C#/.NET inventory systems, including a dual cashier-inventory retail solution on a shared SQL database, gaining hands-on experience while earning income during my studies.

● **EDUCATION & TRAINING**

01/08/2026 - Current - TAMPERE, FINLAND

BACHELOR OF ENGINEERING IN SOFTWARE ENGINEERING- TAMPERE UNIVERSITY OF APPLIED SCIENCES

Programming languages (C++, Java, JavaScript), web and mobile development (frontend, backend, APIs), user interfaces, usability and UX, software architectures and engineering, data analytics and machine learning, cloud computing, cybersecurity, and software project work

Field(s) of study:Software Engineering | **Level in EQF:** 6 | **National classification:** EQF Level 6 | **Type of credits:** ECTS

01/02/2023 - 01/02/2025 - GAMPAAH, SRI LANKA

PEARSON BTEC LEVEL 5 HND IN COMPUTING - SOFTWARE ENGINEERING- ESOF METRO CAMPUS

Programming and software design principles, data structures and algorithms, database design and development, discrete mathematics for computing, software development lifecycles, systems analysis and design, website design and development, user experience and interface design, networking, IT security, professional practice, and applied computing research methods.

Field(s) of study:Software Engineering | **Final grade:** Merit | **Level in EQF:** 5 | **National classification:** RQF Level 5 (UK) / EQF Level 5 | **Type of credits:** RQF | **Number of credits:** 240

01/07/2022 - 01/08/2023 - GAMPAAH, SRI LANKA

PEARSON ASSURED LEVEL 3 DIPLOMA IN INFORMATION TECHNOLOGY- ESOF METRO CAMPUS

Covered programming fundamentals (Python, C#), database development with SQL, networking, and software engineering basics.

Field(s) of study:Information Technology | **Final grade:** Merit

Link https://drive.google.com/file/d/14Mx1xfqCYiUH9z-i7SSDEb7MTd1bbPKd/view?usp=drive_link

01/07/2022 - 01/08/2023 - GAMPAAH, SRI LANKA

PEARSON ASSURED LEVEL 3 DIPLOMA IN ENGLISH- ESOF METRO CAMPUS

Professional business English, written and spoken communication, and workplace communication skills.

Field(s) of study:English Language

Link https://drive.google.com/file/d/1cZVGt-vtf_1HPxMUTHoK-ZtRUtLXxY5J/view?usp=sharing

01/05/2022 - GAMPAAH, SRI LANKA

GCE ORDINARY LEVEL EXAM- HENEGAMA CENTRAL COLLEGE - NATIONAL SCHOOL

Field(s) of study:General Secondary Education | **Final grade:** Passed Successfully

● **SKILLS**

Technical Skills

Flutter Development | Dart programming language | Swift (computer programming) | SwiftUI (intermediate) | PHP | Laravel | NextJS | TailwindCss | JavaScript (Node.js) | Python (computer programming) | Python/Flask | RESTful APIs | WebSockets | MySQL | PostgreSQL | Redis | Nginx | Git | GitHub | GitLab | Bitbucket | Docker | use object-oriented programming | Software Development Lifecycles

Professional Skills

Technical Leadership | Client Communication | Project Management | Cross-Functional Collaboration | Remote Team Collaboration | Problem Solving | Critical Thinking | Stakeholder Management | Decision Making | Self-Motivation | Accountability | Attention to Detail | Prioritization | Time Management | Adaptability

LANGUAGE SKILLS

Mother tongue(s): SINHALA

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C1	C1	B2	B2	B2
FINNISH	A1	A1	A1	A1	A1
